# HORRID HURRICANE

What happened?

Seeker of Sabotage

The hurricane in the eastern USA (The Seeker of Sabotage) got up to category 5, which is up to 175 mph! It tore through the land, crashed down houses, and flooded land for miles. It kept going for eight days, and one thousand people were killed. Most by drowning. This hurricane was unsorgivable.

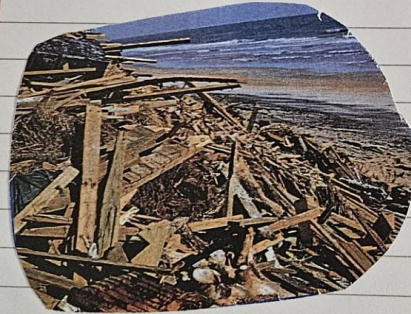

This beast began in 2022, October 10<sup>th</sup>, Wednesday. Everything was going calm. Nothing was wrong. At least, that's what we thought. That's when it all began. At 10:00 am. A person, Alice Hock, said "I was the only one who survived, and I never thought I would. I wonder if it was on purpose, if it was for a reason. Why did it have to happen?" A hurricane started without warning, and only 10 animals and 1 person survived. 9,000 because of drowning, and 100 because of destruction and being thrown out. Nothing survived, every single thing was destroyed. It was devastating. If you want to find out more, go to [Thehorridhurricane.com](http://Thehorridhurricane.com) or [yt](https://www.youtube.com/watch?v=...) on google. Thank you.

## HURRICANE HORROR

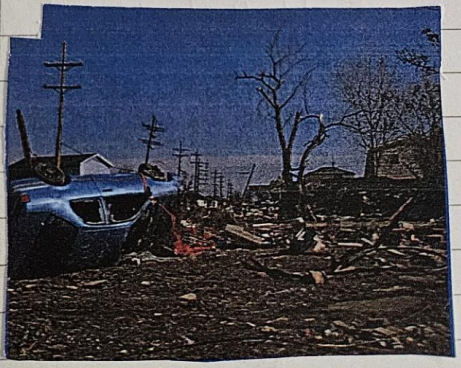

Many people lost their homes and many drowned and many died. 1 million people lost homes, 1200 people drowned and 1833 people died. This catastrophic hurricane lasted over a week and reached wind speeds of 175 mph.

### Hurricane Katrina What Happened?

This is one of the worst hurricanes that have happened. Hurricane Katrina was a Saffir-Simpson scale 5 (the most catastrophic). A spokesman said, "I was just sitting down for my afternoon tea when I heard a sudden splash and before I knew it trees were crashing down and being pushed into my pool and suddenly I knew it was a hurricane."

### Fun facts

- The damages were worth 108 billion pounds to repair.
- Oil facilities were damaged and as a result petrol prices are rising in the USA and UK.
